 Title: EFFECT OF HEAT TREATMENTS ON THE YIELD, QUALITY AND STORAGE STABILITY OF OIL EXTRACTED FROM PALM FRUITS

No	Corrected info
1	Abstract (Page 1). Line 2 and 6 “90 °C” change to “90°C”.
2	Abstrak for Bahasa Malaysia translation (Page 1). Line 3 and 8 “90 °C” change to “90°C”. Line 6 “asid lemak yang telah dicirikan” change to “asid lemak telah dicirikan”. Line 7 “peratus pengekstrakan minyak meningkat secara signifikan dengan kenaikan kesan suhu dan masa” change to “peratus pengekstrakan minyak meningkat secara signifikan dengan kenaikan suhu dan masa” Line 12 “1.32 %” change to “1.32%”
3	Introduction (Page 2) Third paragraph, line 3. “Thus, many researchers have “ change to “Thus, researches have”
4	Materials and methods (Page 2) Subtopic ‘processing palm fruitlets: experimental design’ “Sterilisation” change to “sterilization”
	Materials and methods (Page 3) Subtopic oxidative stability Line 3 “110 °C” change to “110°C” and “10 L/h-1” change to “10 L/h” Subtopic fatty acid composition Line 4 “7 mL” change to “7 ml” Subtopic storage of palm oil extract Line 2 “28 °C to 32 °C” change to “28°C to 32°C”
5	Results and discussion (Page 4) Subtopic Oil yield, effect of temperature Line 1 and 3 “90 °C change to 90°C” Subtopic oil yield, effect of time Second paragraph. Line 3 “24.55 %” change to “24.55%” Results and discussion (Page 5) Subtopic physicochemical analyses of extracted oil, chemical analysis Line 2 “dry and wet heating technique” change to “dry and wet heating” Results and discussion (Page 6) Subtopic unsaturated fatty acid contents Second paragraph. Line 2 “Womeni et al. “ change to “Macaire et al.”
6	Conclusion Line 4 “90 °C” change to “90°C”
7	References (Page 9) 5. “Microwave pretreatment; A clean..” change to “Microwave pretreatment: A clean..” 7. “Chua, L. S.” change to “Chua, L. S.” 8. “ Fauzi, N. A. M.” change to “Mohd Fauzi, N. A.” 15. “Choo Y. M.,” change to “Choo, Y. M., “ and “Ma, A. N.” change to “Ma, A. N.,” 17. “Yew. A. T. “ change to “Yew, A. T. “
